

March 2023

March came roaring in with an Enrichment Program provided by *Mobile ED Productions*. "*They Made a Difference: Women in History*". A fun learning experience for our K-8th grade. Later this month our ECC Students will have a visit from some adorable "Barn Babies". Our 5th-8th Grade students have started their After School STEM Club, we definitely have some budding mathematicians and engineers! Keep a look out for the **BOOK FAIR**, there will be opportunities to volunteer and our kids get to shop for some new books! A portion of the proceeds will help Mrs. Hogan grow our Library!

**Happy St. Patrick's Day to all in our School Community!**
